sales@g2vdesign.com.au

G2V Design Pty. Ltd. provides NSPs with a range of Syringe Dispensing Machines to increase access to sterile injecting equipment.

Data capture:

- optional customer data entry at dispensing time, which can be retrieved for later statistical analysis (may include information such as Age Range/ Post Code / Gender / Housing Status / Health Care Card).

Weather resistant and secure:

- manufactured from galvanised steel; powder coated external surfaces & AISI304 stainless steel / galvanised steel delivery bucket.
- two T-Bar locking mechanisms, and a high security hidden shackle puck lock.
- delivery bucket anti-theft system prevents access to the machine through the product delivery bucket.
- routinely located outdoors, under porticos or awnings for rain protection.
- tamper alarm.

Mains powered or battery operated:

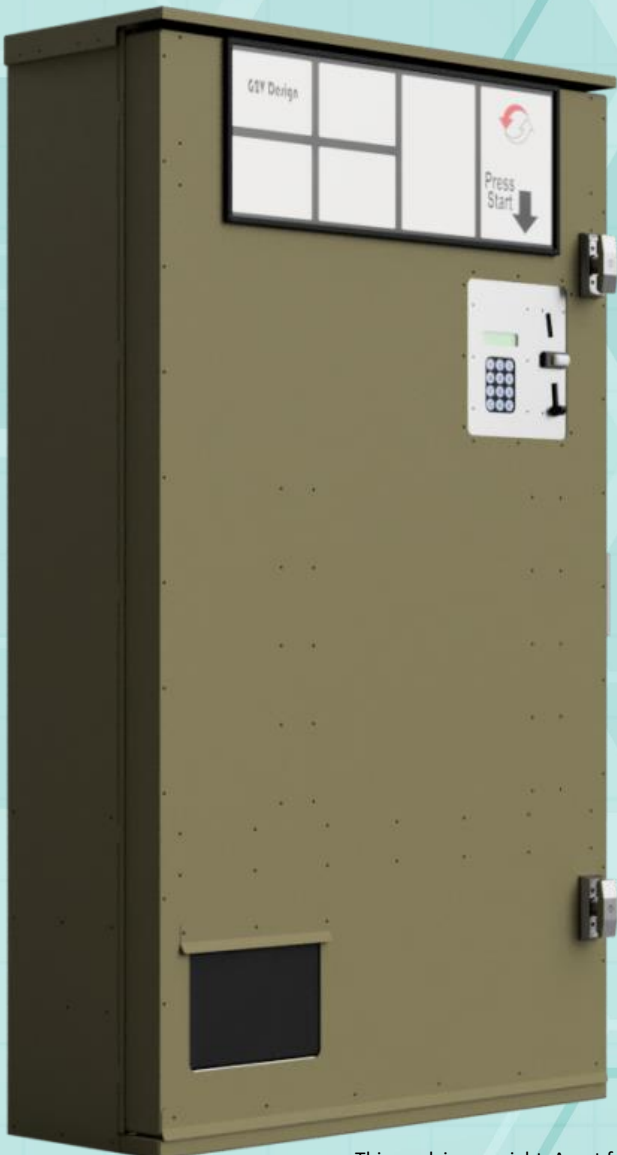

- inbuilt switch mode power supply where mains electricity is available;
- or battery operated where access to power is impractical.

Free-vend, coin or token:

- able to provide multiple payment methods, and/or free-vend.

Flexible vending selections and assured product delivery:

- up to 10 product selections.
- infra-red product drop sensors will automatically recover failed vends.

This work is copyright. Apart from any use permitted under the Copyright Act 1968, no part may be reproduced by any process, nor may any other exclusive right be exercised, without the permission of G2V Design Pty. Ltd.

Flexible shelving system:

- up to 10 shelves that are horizontally and vertically adjustable to facilitate different size products.
- all shelves support either 60mm or 80mm diameter coils.
- approximately 90 products (depending on product dimension and required shelf spacing and coil size).

Purchase or rent:

- purchase a machine outright;
- or choose from one of our rental options (minimum term 2 years).

After sales service:

- all machines are provided with detailed operations manuals.
- a range of maintenance options available to ensure your machine keeps running.

Physical characteristics:

- Width 820mm
- Depth 307mm
- Height 1420mm
- Weight approx. 110kg

Optional accessories:

- a range of optional accessories including floor stands, specialised “free stands” where a wall is not suitable for mounting, weather awnings and vandal protection frames can be tailored to your needs.
